AirBoss Riot Control Cartridge

The Riot Control Cartridge is a solution specifically designed to protect against riot control agents and gases. Designed with a standard 40mm thread connection, it's compatible with multiple respiratory protection systems. The low profile and lightweight design provide high levels of protection with minimal additional strain on the user.

Compatible with most masks

Designed with standard 40mm NATO threads to be used interchangeably with most masks.

Seamless integration with protective gear

The low profile and lightweight filter design allow for easy integration with riot control helmets and operational protective gear.

Protection against riot control agents

Developed with the operational needs of law enforcement professionals in mind. The Riot Control Cartridge can withstand up to 24 hours of exposure to riot control agents and tear gases including pepper spray (OC), CS, and CN gases.

Specifications

PART NUMBER

S-70060

SHELF LIFE

10 years in original foil-sealed packaging

DIMENSIONS

Height: 2.51 in (64 mm)

Diameter: 4.20 in (106 mm)

WEIGHT

5.64 oz (160 g) (nominal)

CONNECTION

EN 148-1 (40 mm) NATO thread

MATERIAL

Noryl GFN1

PRESSURE DROP

20 mm H₂O (nominal) measured at NIOSH airflow rate of 85 lpm

PROTECTION AGAINST

- 2-Chlorobenzylidene Malononitrile (CS)
- 2-Chloroacetophenone (CN)
- Oleoresin Capsicum (OC) pepper spray
- > 99.97% of particulates
