AirBoss 100™ Half Mask Respirator

Protect yourself and those around you with the NEW AirBoss 100 Half Mask Respirator. It's the next step forward in personal protective equipment (PPE) for healthcare workers, law enforcement, and first responders. The AirBoss 100 Half Mask is an easy-to-use, affordable, reusable mask that carries the protective power of the N100 filter, and its lightweight, comfortable design reduces discomfort from long-term respirator wear. The AirBoss 100 is proudly sourced and made in USA.

An industry leader in two-way protection

The AirBoss 100 Half Mask is one of the first respirators to filter both inhalation and exhalation, offering N100 protection to the user and environment on every breath.

High performance filtration

Our filters, integral to our NIOSH approved design, offer N100-level protection (>99.97% particulates) providing excellent moisture management, clear voice transmission, and low breathing resistance.

Soft interior conforms to your face

Features a flexible nose cup for improved facial fit, a comfortable head harness, and low breathing resistance to help reduce discomfort from long-term respirator wear.

Visor attachment

An easily mounted visor accessory offers a broader level of protection for the user's face and eyes.

Specifications

FILTRATION
Inhalation and exhalation

FILTER
N100 (>99.97% of particulates)
