# AirBoss Shelter Solutions

All shelters have external articulating frames made from corrosion-resistant anodized aluminum and offer quick and easy deployment and breakdown. The materials are UV stable and water, chemical, flame, and fungus resistant. Each shelter stores in a space-efficient size and includes a sturdy transport bag.

## Decontamination

### Individual

5'3"L x 5'6"W x 7'5"H

Accommodates a single ambulatory person. Tall profile for people in PPE.

### 2-Line

19'9"L x 8'2"W x 7'3"H

Compact footprint enables dual lines. Very portable and lightweight.

### 3-Line

19'6"L x 10'9"W x 8'H

Handles both ambulatory and non-ambulatory patients within the same compact footprint.

### 4-Line

19'5"L x 16"W x 9'5"H

Separates into four decon lines. Enables patient privacy for male and female patients. Flexibility to convert to both ambulatory and non-ambulatory.

NOTE: Interior dimensions shown. For exterior dimensions, add 20" to width and 10" to height.

**Shelters include:** Interior basin • Curtains • Accessory cord ports • Waste water hose ports • Zippered clothing ports • Zippered doors • Door tie-backs • Ground cloth • Anchor kit • Repair kit • Hose adaptor kit

**Optional Accessories:** Water heater • Water hoses • Hand sprayers • Waste water pump • Light fixtures • Litter conveyor • Transfer board • Floor risers • Shower maintenance kit

## General Purpose

### Command Post

Small footprint for storage and transport. Can be carried and deployed in less than two minutes by two people.

10'L x 8'W x 7'3"H  
12'6"L x 8'W x 7'3"H  
14'11"L x 8'W x 7'3"H

### First Response

Lightweight, compact, and extremely portable. Can be deployed in less than two minutes by two people.

12'3"L x 10'9"W x 8'H  
14'8"L x 10'9"W x 8'H  
19'6"L x 10'9"W x 8'H

### Casualty Management

Multi-use shelter provides for large scale medical care, triage, and rehabilitation. Compact and lightweight. Can be deployed by three people in three minutes under any conditions. Large screen windows provide light and ventilation.

17'1"L x 16'W x 9'5"H  
21'4"L x 16' W x 9'5"H  
23'9"L x 16' W x 10'3"H

### S-Frame Shelter

Large multi-use shelter providing 420 square feet of usable space. Can be deployed by six to eight people in less than fifteen minutes. Collapses to a 5' X 5' square for easy transport.

It can be complexed together to form even larger structures. Ideal for hospital use, rehabilitation, or storage.

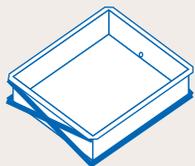

21'L x 20'W x 10'H (Cross straps at 7'11"H)

NOTE: Interior dimensions shown. For exterior dimensions, add 20" to width and 10" to height.
