Bandolier Multipurpose Line Charge

The Bandolier is a lightweight and modular explosive system, employable across mobility, countermobility, and survivability mission profiles. Using a patented hinged tray and sleeve enclosure, the Bandolier bridges the capability gap between large, complex, single-role charges and standard bulk demolitions. The Bandolier's unique modular design is light enough for dismounted operations while remaining flexible enough to meet larger-scale mission requirements.

Features and Benefits

- **Lightweight** 47% lighter than the equivalent explosive capability of C4.
- **Modular** compact design enables load distribution amongst personnel.
- **Rapid** in-stride deployment through integrated, adjustable boosters.
- **Multipurpose** application for use against a range of targets.
- **Versatile** conformity to complex target geometries.
- **Scalable** design enables mission-tailored application.
- **Efficient** consumption reduces explosive waste and excessive standoff.
- **Simple** non-mechanical design, with no metallic fragmentation.
- **Interoperable** with all standard military spec initiation systems.

Applications

- Steel cutting
- Timber cutting
- Wire and fence breaching
- Concrete/masonry breaching
- Path clearance
- Dynamic entry
- Cache reduction
- UXO/IED remediation
- Underwater demolition

Specifications

TOTAL SYSTEM LENGTH

- 35 ft (10.5 m) system
- One (1) 5 ft (1.5 m) module
 - Three (3) 10 ft (3 m) modules

TOTAL WEIGHT

15 lb (6.8 kg)

TOTAL NET EXPLOSIVE WEIGHT (NEW)

- 11.60 lb (5.26 kg)

MODULE NET EXPLOSIVE WEIGHT (NEW)

- 1.75 lb (796g) for the 5 ft module
- 3.28 lb (1.31 kg) for the 10 ft module

NSN (NATO)

1375-17-126-7478

TESTING

Meets MIL-PRF 46676B(AR) test criteria

HAZMAT CLASSIFICATION

UN0048; 1.1D
